

EUFIC internship: Content production

About us

EUFIC - the European Food Information Council- is a non-profit organisation providing science-based food and health information.

We are passionate science and communication experts who believe in the power of knowledge and in a world where we live healthier and more sustainable lives because we all know how to. To help build it, we offer accessible, appealing and actionable science-based information to inspire and empower people to improve their diet and lifestyle.

We collaborate with a broad network of academics, national and international organisations, businesses and professionals in the food and health sector, as well as in a range of publicly-funded projects to help advance innovation to future-proof our food system.

Job description

We are looking for MSc students who wish to deepen their knowledge of science communication particularly in the area of Food & Health. An intern must be able to commit to at least 6 months, and preferably longer.

Key responsibilities:

We appreciate and encourage interns to be proactive and as much as possible own their own activities/projects, which can be:

- Active involvement in development, review, and promotion of different types of science-based content – textual and audio-visual – covering a wide range of food & health related topics including nutrition, lifestyle, food safety, food quality, food risk communication, and sustainability
- Desk research on scientific topics or events
- Assisting in organising meetings, conferences, presentations
- Database management and filing
- Supporting (senior) managers with EU-funded projects and other activities

Educational requirements, experience and skills

- currently enrolled in an MSc programme towards a scientific degree focused on food safety, food science, nutrition, or a related area, with the option to pursue a placement during their studies
- strong and proven English writing skills, another European language is an advantage
- available for at least 6 months, but preferably longer (up to 12 months)
- an excellent communicator, with ability to translate scientific information into easy to understand language
- interested in and a passion for food & health communication
- can search for information, digest it, and summarise succinctly
- proactive and well organised, capable of handling tasks alone
- good interpersonal skills

- eye for detail
- experienced with content management systems and web-based applications
- working knowledge of standard software packages (e.g. Microsoft Word, Excel, PowerPoint, Outlook)

Job conditions

Trainees enjoy the following:

- full-time position
- living allowance of 450 €/month
- multicultural workplace in the heart of Brussels (possibility to work remotely)
- a chance to learn from dedicated science and communication professionals
- possible European travel for meetings and conferences
- the intern must be in possession of a working laptop

Application

Email your application, including your CV and a letter of motivation, to jobs@eufic.org **by April 30th or October 31st (depending on the internship period)**, stating “Content internship” in the subject.

You may be invited for a couple of interviews via Teams, followed by a written assignment. Only candidates selected for interviews will be notified.
